PROFESSIONAL SUMMARY

MBA (Finance) graduate with experience in accounting, financial reporting, budgeting, forecasting, statutory compliance, and investment analysis. Skilled in financial modelling, valuation, cash-flow management, and data-driven performance analysis using Advanced Excel, Power BI, Tally Prime, and Zoho Books. Demonstrated ability to analyze financial reports, identify business trends, and provide insights that support investment decisions and strategic planning. Detail-oriented and adaptable professional with strong problem-solving, communication, and process-improvement skills.

PROFESSIONAL EXPERIENCE

Accounts Executive | Asia Solutions | 1 September 2025 – Present

- Manage purchase, sales, expense, payment, and receipt accounting entries using accounting software.
- Prepare and file GST, ITR, TDS, and Professional Tax returns, ensuring timely statutory compliance.
- Prepare cash-flow statements, financial statements, and monthly and annual management reports.
- Perform bank reconciliations and maintain accurate financial records and documentation.
- Manage payroll and support company accounting and regulatory compliance activities.
- Prepare monthly budgets and financial forecasts using historical data to support business planning.
- Conduct sales and expense analysis and provide financial insights for business-growth strategies.
- Develop streamlined accounting processes and SOPs to improve efficiency and turnaround time.
- Use financial modelling, MS Office, and Power BI for financial analysis, reporting, and decision support.

Intern | C.A. Harsh Jain | April 2024 – July 2024

- Assisted with GST and ITR filing, field audits, financial documentation, and audit coordination.
- Supported GST registration, client data management, data entry, and client handling activities.

KEY ACHIEVEMENTS

- Increased cash flow by 15% through improved cash management and financial monitoring.
- Reduced sales receivables to an average of 5 days through improved tracking and follow-up.
- Reduced accounting errors by 95% by strengthening review processes and standardizing practices.
- Established SOPs to accelerate and standardize record-keeping and accounting workflows.
- Analyzed financial reports and business performance trends to support informed investment decisions and develop effective financial strategies.
