

UX Design Intern Openings for UX Stories & Healthcare Products

Location: Remote (Bangalore). You will have to come to the office when required.

Duration: 3–6 Months

Join UX Stories, a platform focused on sharing real-world UX knowledge while building digital healthcare products for regulated industries.

As a UX Design Intern, you'll work on live healthcare and product design projects, gaining hands-on experience in UX research, interaction design, design systems, AI-assisted design workflows, and product strategy.

You'll work directly under [Roopa Rao](#), a Product & UX Design Strategist with nearly 20 years of enterprise design leadership experience, receiving mentorship, regular design reviews, and exposure to real-world product development.

What You'll Do

- Conduct UX research and competitor analysis
- Create user flows, wireframes, and prototypes in Figma
- Contribute to healthcare product design
- Assist with design systems and documentation
- Create educational content and case studies for UX Stories
- Explore AI tools to improve design workflows

Who We're Looking For

- Students or recent graduates passionate about UX/Product Design
- Familiarity with Figma and UX fundamentals
- Curious, proactive, and eager to learn
- Strong communication and problem-solving skills

What You'll Gain

- Experience working on real products
- One-on-one mentorship
- Portfolio-worthy projects
- Exposure to healthcare, enterprise UX, and product strategy
